GOVERNMENT OF INDIA — COPYRIGHT OFFICE

REGISTRATION OF COPYRIGHT IN A COMPUTER PROGRAMME

[Form XIV • Rule 70 of the Copyright Rules, 2013 • Section 2(o) of The Copyright Act, 1957]

PART I: STATEMENT OF PARTICULARS

Col No.	Particulars Required	Details Provided by Applicant
1	Registration Number	(To be allotted by the Copyright Office upon submission / Diary No.)
2	Name, Address & Nationality of the Applicant	**1. Vivek Tambat** Nationality: Indian **2. Priyansh Jain** Nationality: Indian
3	Nature of the Applicant's interest in the copyright of the work	**Author(s) & Absolute Owner(s)** of the original computer programme
4	Class of the work	**Computer Software Work** (Literary Work under Section 2(o) of Copyright Act, 1957)
5	Title of the work	**GeM BidVerify AI — Automated Public Procurement Compliance & Verification Suite**
6	Language(s) of the work	**Python 3.11, JavaScript (ES6+), React 18 / JSX, HTML5, CSS3, SQL**
7	Name, Address & Nationality of the Author(s)	**1. Vivek Tambat** (Indian) **2. Priyansh Jain** (Indian)
8	Whether the work is Published or Unpublished?	**Unpublished** (Created as an original software application / activity)
9	Year & Country of First Publication (if published)	N/A (Work is Unpublished)
10	Years and countries of subsequent publications (if any)	N/A
11	Names, addresses and nationalities of the owners of the various rights comprising the copyright	**Vivek Tambat and Priyansh Jain** (Joint Owners / Co-Authors), Indian Nationals
12	Names, addresses and nationalities of other persons authorised to assign or license rights	None (Restricted to the Authors)
13	If the work is an 'Artistic work' / Trademark NOC	Not Applicable (Work is a Computer Software / Literary Programme)

PART II: STATEMENT OF FURTHER PARTICULARS (FOR COMPUTER PROGRAMMES)

Col No.	Particulars Required	Technical Specification
1	Is the computer programme original?	**Yes.** The programme is entirely original and authored from the ground up by the applicants.

2	Language, Hardware and Operating Environment Specifications	• **Programming Languages:** Python 3.10+, JavaScript (ES6+), JSX, HTML5, CSS3. • **Operating System:** Platform Independent (Windows 10/11, Linux Ubuntu 20.04+, macOS). • **Core Frameworks:** FastAPI (Asynchronous REST API), React 18, Vite, SQLite3 (WAL mode), Tesseract OCR / PDFPlumber, PyJWT. • **Hardware Requirements:** x86_64 or ARM64 multi-core processor, 4 GB RAM minimum, 2 GB storage.
3	Brief Synopsis / Functional Overview of the Software	**GeM BidVerify AI** is an intelligent, automated compliance and verification platform designed for public procurement on the Government e-Marketplace (GeM) adhering to Rule 149 of the General Financial Rules (GFR 2017). **Key Architectural & Algorithmic Modules:** 1. *Dual-Portal Architecture:* Segregated Vendor Bid Gateway (FastAPI/HTML5) and Procurement Officer Verification Console (React/Vite) backed by a shared ACID SQLite ledger. 2. *Deterministic Compliance Engine:* Extracts and cross-verifies statutory vendor certificates (GSTIN REG-06, PAN, Udyam MSME, audited financial turnover) using optical character recognition and regex pattern matching. 3. *Scoring & Risk Formulation:* Computes weighted compliance scores (S_c) and financial/eligibility risk indices (R_k) preventing subjective human evaluation errors. 4. *Tamper-Evident Audit Ledger:* Implements SHA-256 cryptographic hash-chaining across all bid reviews, officer overrides, and final eligibility determinations to ensure non-repudiation.

PART III: SOURCE CODE DEPOSIT & VERIFICATION SUMMARY

Under Rule 70(6) of the Copyright Rules 2013, for computer programmes exceeding 20 pages, the applicant deposits the **first 10 and last 10 pages** of the unredacted source code listing, with the full source code listing maintained and certified under cryptographic SHA-256 integrity hashes.

Document Name	Purpose / Filing Role	Pages / Details
GeM-BidVerify-AI_source-code_FIRST10_LAST10.pdf	**Primary Mandatory Upload Document** for Copyright Office online portal	**20 Pages** (Pages 1–10 & 180–189 of 189 total pages)
GeM-BidVerify-AI_source-code_FULL.pdf	Complete Source Code Repository (for physical CD/DVD deposit / audit record)	**189 Pages** (65 source code files, 13,800+ lines)
SOURCE_MANIFEST.txt	Cryptographic Fingerprint Manifest	SHA-256 integrity hash for each individual source file

---

PART IV: APPLICANT DECLARATION & SIGNATURES

We hereby declare that the particulars given above are true and complete to the best of our knowledge and belief, that the computer programme titled *'GeM BidVerify AI — Automated Public Procurement Compliance & Verification Suite'* is an original creation authored by us, and that no part thereof infringes upon any existing copyright.
